**SUPPLEMENTARY INFORMATION:**

## **I. Background**

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (see 29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (see 29 U.S.C. 657).

The information collection requirements in the Hexavalent Chromium standards for General Industry (29 CFR 1910.1026), Shipyard Employment (29 CFR 1915.1026), and Construction (29 CFR 1926.1126) (the "standards") protect workers from the adverse health effects that may result from occupational exposure to hexavalent chromium. The major information collection requirements in the standards include conducting worker exposure monitoring, notifying workers of their chromium exposures,

implementing medical surveillance of workers, providing examining physicians with specific information, implementing a respiratory protection program, notifying laundry personnel of chromium hazards, and maintaining workers' exposure monitoring and medical surveillance records for specific periods.

## **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

## **III. Proposed Actions**

The agency is requesting an adjustment decrease of 72,001 burden hours (from 493,968 to 421,967 burden hours). The agency estimates an overall increase in the estimated number of covered establishments in specific industry sectors. However, due to the identification of a calculation error in the previous ICR, the burden hours associated with the establishment increase is off-set by a burden hour reduction associated with employee time to conduct quarterly exposure monitoring. In addition, there is an estimated

decrease of \$3,273,026 in operation and maintenance costs from \$46,712,927 to \$43,439,901. The decrease in these costs was due to a lower wage for contractors than the one used previously. This resulted in operating and maintenance costs that were lower than that reported in the previous ICR.

*Type of Review:* Extension of a currently approved collection.

*Title:* Hexavalent Chromium (Cr(VI)) Standards for General Industry (29 CFR 1910.1026), Shipyard Employment (29 CFR 1915.1026), and Construction (29 CFR 1926.1126).

*OMB Control Number:* 1218-0252.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 78,321.

*Frequency:* On occasion; Quarterly; Semi-annually; Annually.

*Average Time Per Response:* Various.

*Estimated Number of Responses:* 923,898.

*Estimated Total Burden Hours:* 421,967.

*Estimated Cost (Operation and Maintenance):* \$43,439,901.

#### **IV. Public Participation — Submission of Comments on this Notice and Internet**

##### **Access to Comments and Submissions**

You may submit comments in response to this document as follows: (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal;

(2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2012-0034) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled “**ADDRESSES**”). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350; TTY (877) 889-5627.

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> website to submit comments and access the docket is available at the website’s “User Tips” link. Contact the OSHA Docket Office for information about materials not

available through the website, and for assistance in using the internet to locate docket submissions.
